SKILLS

React, React Native

Redux, JavaScript, TypeScript

Node JS, Git,

TDD (Mocha/Chai), SQL

EXPERIENCE

Witkit, Vancouver — *Software Developer*

MARCH 2015 - PRESENT

Implemented slack style chat bots, added google facial recognition (Vision API) to project, created a custom js library to scan drivers licences and get the barcode information. I also built custom react components and the company's react native application.

Lighthouse Labs — *Teaching Assistant*

JANUARY 2015 - JULY 2017

I worked with students to debug code and explained any development concepts they had issues with. This program covers JavaScript, Node, React, Ruby, Databases and Data Modeling as well as Test Driven Development.

Dynamic Owl —*Office Manager/Marketing Assistant*

NOVEMBER 2013 - DECEMBER 2014

A small company startup, I played many roles in this job. Relevant experience includes creating HTML emails for marketing campaigns, monitoring site analytics, SEO, and updating/maintaining the company's wordpress site and blog.

VOLUNTEER WORK

Ladies Learning Code

Helped attendees with class projects in a multi day introduction to Artificial Intelligence and Machine Learning class.

HTML 500

Helped participants with creating HTML and CSS pages in this basic web development introduction class.

EDUCATION

Lighthouse Labs — *Web Development*

NOVEMBER 2014 - JANUARY 2015

BCIT — *Web Development*

SEPTEMBER 2010 - MAY 2012

UVIC — *Business Administration*

SEPTEMBER 2009 - MAY 2010
